Genee

CORPORATE SOLUTION

IMAGINATION • INNOVATION • COLLABORATION

INTRODUCTION

As a major UK manufacturer and software developer Genee provides whole solutions to create innovative interactive environments for your business, enabling you and your staff to stand out above your competitors. Having been at the forefront since 2005 for manufacturing interactive displays right through to registrars, we are confident our versatile and bespoke solutions can be used as the perfect collaboration tool for all corporate spaces.

WHY DO YOU NEED OUR SOLUTION?

BENEFITS...

✓ Wireless display casting to the screen from any device.

✓ Display and manipulate multiple files, images and videos on the screen.

✓ Accessibility to all files.

✓ Increased efficiency with streamlining tasks.

IDEAL FOR...

✓ Offices

✓ Boardrooms

✓ Huddle Spaces

✓ TV Display Areas

✓ Reception Areas

✓ Waiting Areas

✓ Showrooms

✓ Hallways

IN ADDITION...

✓ We help reduce your company's carbon footprint.

✓ Our products are interoperable.

✓ Support from UK based Genee specialists.

✓ All data is kept in the UK.

We have developed the Genee Ecosystem to help your businesses become more productive by streamlining tasks, allowing better collaborations and communications.

It has everything you need:

Registrar System which reduces time management and control administration work and keeps your business safe and secure as you know who is in your building at any time. The system meets your GDPR regulations.

Interactive Touchscreens that are adaptable for board rooms, huddle rooms and conference rooms.

OPS (Open Pluggable Specification) units enable interactive screens to work as a standalone system without the need for wires or network / PC devices. Helping to futureproof your technology investments.

Genee Soundbar (soundbar with built in camera and microphone) perfect to collaborate external meetings and video conferencing.

Visualisers (Document Cameras) that help showcase documents and reduce your businesses carbon footprint.

Wall Mounts and Stands to provide the perfect means for displaying your interactive touchscreen in your office, displays, meeting rooms, presentation areas and information hubs.

All of our products are supported by our internal UK team and come with a comprehensive warranty.

GENEE **REGISTRAR**

THE COMPLETE VISITOR MANAGEMENT SOLUTION

If your business has visitors or staff, then you need a registrar system.

GENEE REGISTRAR HELPS

✓ Your business become GDPR compliant.

✓ Increases visibility of who is coming in and out of your business.

✓ Keep track of employee sign in and out times for both office and remote workers.

Genee's Visitor Management System provides you with a secure and flexible record of visitors, staff and customers' attendance on site.

Visitors can sign in quickly and easily provide essential details such as their car registration and the company they are visiting from, so that you always have simple access to detailed visitor information.

Every sign in will take an image and store it to the system, this will enable organisations to verify the identity of a sign in. View a report to see the sign in times and images along with additional details.

SEND AUTOMATED EMAIL NOTIFICATION WHEN VISITORS ARRIVE

Genee Registrar will notify you when your visitor signs in! When your visitors arrive and signs into the registrar system, you will get an email notification stating they have arrived. This powerful software can eliminate the need for a receptionist!

YOUR VISITOR HAS ARRIVED!
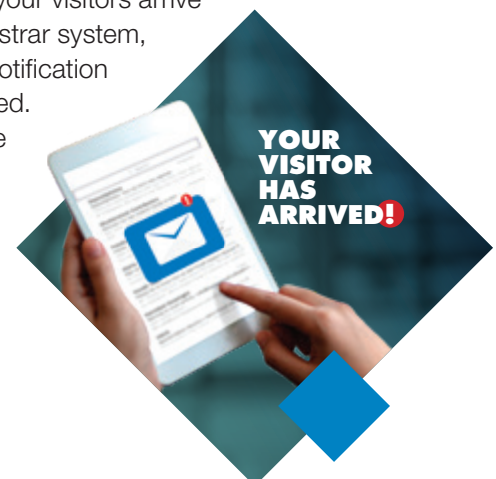

1. Full high-definition (FHD) camera
2. 23.5" touchscreen Narrow Bezel Full HD IPS (1920x1080) display with touch and anti-glare
3. All-in-one height adjustable stand (wall or desk mount optional)
4. Thermal label printer
5. Fixed mount scanner

Each Genee Registrar unit consists of a touch screen PC, Registrar software, camera, thermal label printer and barcode scanner, along with options to include an NFC card reader or Paxton Net2 entry reader.

Each visitor receives a temporary, barcoded badge with their photo on for easy security checking. They can use this badge to quickly sign in & out throughout the day without having to re-register each time.

Staff can sign in and out every day using specially printed permanent barcoded passes, giving you a record not only of which staff are on-site, but also a record of their timekeeping for HR & Payroll purposes. The Genee Registrar also incorporates a mobile app that can be used to view who is inside the building at any time, as well as to check times of signings in and out. This app can work highly effectively when an emergency evacuation is required, giving a quick and complete evacuation register.

OTHER FEATURES OF GENEE REGISTRAR

AUTO GENERATE CALENDAR INVITES FOR EVENTS

Registrar will now automatically email an outlook .ics calendar invite to all invited members of a meeting.

G-TOUCH® GEM SERIES

Introducing the G-Touch® Gem Series. We have created the most powerful engaging touchscreens to empower presenters and engage audiences. As a leading UK based manufacturer of touchscreens, we work closely with a multitude of sectors to establish specific needs and requirements.

The Gem Series consists of the Sapphire, Ruby, Opal and Emerald range. Each range has been created to give users the opportunity to pick a touchscreen that fits their requirements and budget. All of the Gem Series have 4K displays, 5-year warranty and are Windows, Mac and Chromebook compatible.

User interface is one of the most important factors when developing digital touch technology. Developing a 3-touch rule allows users to access any function within 3 touches, ensuring an intuitive and easy way to use our G-Touch® screens.
G-TOUCH® SAPPHIRE RANGE

Is an easy-to-use and powerful G-Touch® Interactive Range to elevate engagement and empower presenters. Utilising the latest anti-glare technology, the G-Touch® Sapphire ensures that content is always visible from any seat in the room. With crystal clear audio via the front facing speakers is ideal when incorporating video presentations or remote sessions. Along with 4K LED display technology to reduce your impact on the environment and your running costs.

G-TOUCH® RUBY RANGE

Next in the Gem Series is the G-Touch® Ruby, packed with features similar to the Sapphire to enhance your presentations, meetings and training sessions. The Ruby includes Android 8, large on-board storage, Wi-Fi accessibility, larger memory, and wireless device casting perfect for collaborative projects.

THE G-TOUCH®
GEM SERIES
INTERACTIVE
DISPLAYS

Reduce your energy costs and carbon footprint! The G-Touch® interactive touchscreens are LED meaning they require less electricity to operate.

G-TOUCH® OPAL RANGE

The latest to the Gem Series is the G-Touch® Opal Range. Everything the Ruby and Sapphire has and more! With improved connectivity with USB Type C, additional memory, extra data storage and Bluetooth. Along with Android 11 built-in and the latest in chip set technology for fast and responsive use.

G-TOUCH® EMERALD RANGE

With our continued innovation, we've developed the highest quality G-Touch® Interactive Screen. The Emerald includes the latest optically bonded glass panel technology allowing for exceptional precision touch. The slender design provides for wide-viewing angels with next to no glare, ideal for making an impact and collaborative tasks.

USB Type C   **Built-in Android**   **Chipset Technology**   **Wireless Display Mirroring**   **Gesture Control**   **Blue Light Filter**
GENEE APP STORE

> " **You wouldn't buy a mobile device without an accompanying App Store, so why would you purchase a touchscreen without one?** "
All at your fingertips!

The Gem Series comes with the Genee App Store pre-installed. The store provides quick and easy access to a range of applications.

SOFTWARE SPOTLIGHT

SPARK II

SPARK II is an interactive screen software. Designed to work on both interactive whiteboards and LED touchscreens, it provides a presenter with an infinite canvas area. As well as importing documents and images from local files or the internet, this software will run over the top of other applications allowing you to annotate, highlight and manipulate objects. SPARK II is available for FREE on all G-Touch® screens.

Watch the SPARK II product video here:
https://www.youtube.com/watch?v=pVfQpiJeBTE
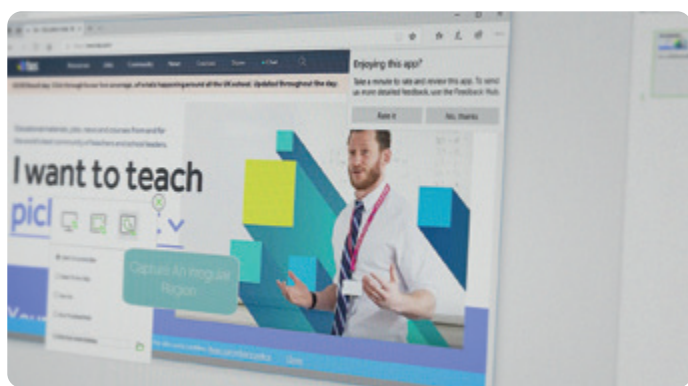

G-VOTE

The built in G-Touch® voting system allows the presenter to create polls within seconds and the audience to scan a QR code and answer instantly. Once the audience has voted the presenters can see the votes and even view it as a pie chart.

GENEE WIRELESS DISPLAY MIRRORING

With more and more businesses becoming digital, it is important for devices to be able to integrate with each other. The G-Touch® Gem touchscreens have built-in wireless display mirroring.

This allows everyone in the room to cast their Apple, Google, Android or PC device directly to the screen, without needing third-party applications.

Simply, press screen mirroring on your device, enter the code which is displayed on the touchscreen and you will be connected. Providing immediate feedback by allowing the option to review answers on the main screen.

Call us on +44 (0)1902 390 862 (UK Sales option 1) and ask for a FREE demonstration.

ACCESSORIES

Depending on your requirements we have a range of accessories that are interoperable with our G-Touch® Range.

GENEE Ai VIDEO BAR

The all new intelligent 4K audio and video integrated conference camera from Genee.

This conference camera is incredibly powerful as it adopts a variety of advanced Ai intelligent algorithms, and integrates multiple Ai framing technologies such as:

| Intelligent Framing Face Detection | Sound Source Localisation Positioning | Voice Tracking 6 Metre Pickup Distance | Camera 120° Viewing Angle | Sound Built-in Speakers | 6 Array Microphones | Simple Connectivity USB3.0 Plug-N-Play |

Undistorted Large-view Lens

All participants have a panoramic view, easily covering every corner of the meeting room, thanks to a 120° super-large viewing angle, an undistorted lens, and no need to adjust the lens position.

Integrated Design / Ultra HD image

A clever design that incorporates a camera, microphone, and speaker. It has 8 million high-quality CMOS image sensors and can produce 4K ultra-high-definition images, clear and realistic ultra-high-definition videos, vividly show character expressions and actions and provide image quality with superior clarity and resolution.

Built-in 6 arrays to achieve voice tracking function

8 million high-quality CMOS image sensors

4K

Built-in high-quality double speaker sound box

Voice Tracking / Built-in Speaker

Built-in 6 arrays to achieve voice tracking function, and real-time tracking of each speaker, allowing remote participants to break the limitation of distance and have an immersive, face-to-face experience.

OPS UNIT

Futureproof your technology investments.

OPS (Open Pluggable Specification) enables you with the ability to upgrade your existing touchscreens to your individual requirements, while helping to futureproof technology investments. The OPS unit can accommodate further, as it can be interchangeable with other devices. You can simply just plug in the OPS unit and experience all the benefits of working in a PC environment.

Available as i5, i7 and lots of memory and storage options to fit your needs.

Call us on +44 (0)1902 390 862 (UK Sales option 1) and ask for a FREE demonstration.

STANDS AND WALL MOUNTS

Designed to provide the perfect means for displaying your interactive touchscreen, whether in a training centre, or board room, we offer a comprehensive range of stands, trolleys and wall mounts. The Genee range is designed to match your needs and your environment within your budget. Our stands, wall mounts and trolleys have been selected to provide a solution for all G-Touch® Gem Series, but are also compatible with other branded screens. Whether you would like your screen to be wall mounted and placed in a permanent location, or to be on a trolley so that it can be moved around the room or the building, we have a mounting solution that will work for you.

SERVICES

MDM GENEE CONTROL

MDM (Mobile Device Management) provides you will complete control of all your G-Touch® screens through a single, cloud based platform, enabling complex operations and tasks to be completed in a refreshingly simple manner.

- Control multiple devices at once
- Ability to share messages
- Updating software

WARRANTY & IN HOUSE TECHNICAL TEAM

We provide warranty across all Genee products ranging from 3-5 years. Our Genee technical team are there to assist on any problems you may have with your Genee products, within your warranty period or outside the warranty period. Genee ensures to provide the ultimate customer experience, which is why Genee is one of the few AV manufacturers that employs its own dedicated internal UK-based technical team, rather than sub-contracting to a third party. You can be rest assured when it comes to our hardware support, it will be a Genee qualified engineer who will provide the best customer service and support.

TRAINING

Our training programmes are delivered by fully qualified Genee staff. This will enable you to fully utilise your new technology to enhance learning and presentations ultimately increasing engagement levels.

This programme is designed for skills training, building on the content of each introductory training session. Receive your first introductory training session for free when you purchase any G-Touch® product.

GENEE TESTIMONIALS

"It will allow us to hold meetings more professionally and deliver a training package to referees and coaches more effectively making use of the latest technology. It is an excellent product which suits all our business needs, it is also easy to use which makes it attractive for when we have external bookings for our rooms."

Adam Lowthorpe - CEO

"I just wanted to pass on a few words to you, the customer service from your support team as a whole has been fantastic, you are quick on the job and always do anything to sort problems out and your members of staff are incredibly professional. We will be sure to carry on doing business with you in the future."

Joshua Blakemore

"Just wanted to say, what great service we have had regarding this fault, could not be more impressed with the speed and efficiency of the process – many thanks for resolving the issue. Wish all our suppliers were as efficient! Thank you again."

Liz, Operations Manager
